## NOTIFICATION.

*No. 3786 A.D.—The 28th September 1920.*—The following is substituted for the existing paragraph 5 of rule 26 in section III of the Rules for the Departmental Examination of Assistant Magistrates and others, dated the 14th September 1912 :—

“ Probationary Assistant Superintendents of Police will be required to appear for the Lower Standard in Law at the first half-yearly examination held after their arrival at the school ; but at subsequent examinations they will be permitted to present themselves for examination in that subject for both standards at the same time. If, however, any such officer liable to pass in the first paper without books by the Lower Standard in Law obtains the minimum marks prescribed for passing in the same paper without books by the Higher Standard, he will be adjudged to have passed both in the Lower and the Higher Standards in this paper. Probationers will also be required to appear for the Lower Standard in Bengali at the first half-yearly examination held after their arrival at the school, but unless they have had a working knowledge of Bengali before they became probationers or have shown unusual aptitude for the language in their studies at the school, it is unlikely that they will prove successful, and no discredit will attach to failure. They should, however, be able to pass at the second half-yearly examination, at which (unless they have passed earlier) they will be required to appear in Bengali by the Lower Standard, but will not be allowed to appear in the examination by the Higher Standard. At subsequent examinations they will be permitted to present themselves for examination, either for the Higher Standard, if the Lower Standard has already been passed, or for the Lower Standard or for both Standards at the same time.

By order of the Governor in Council,

H. L. STEPHENSON,

## DEPARTMENT OF AGRICULTURE, BENGAL.

### Second Forecast of the Cotton Corps of Bengal, 1920-21.

[Note.—On an average of the five years ending 1918-19, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.]

THERE are two crops—early and late. The “early” crop is chiefly grown in the Chittagong Hill Tracts and in the State of Hill Tippera and to a small extent in other districts. The “late” crop is grown in Bankura and Midnapore.

**Character of the Season.**—As reported in the first forecast the weather was generally unfavourable for the early crop both at the time of sowing and during the period of growth. Its present prospects are reported to be fair. The late crop is progressing well and its condition is promising.

**Area sown.**—The area sown with early cotton is reported to be 68,448 acres this year against 69,280 acres reported in the corresponding forecast of last year.

Of the late crop, 307 acres are reported to have been sown up to date, against 758 acres in the corresponding forecast of last year.

**DEPARTMENT OF AGRICULTURE, BENGAL.**

**Preliminary Forecast of the *Bhadoi* Crops of Bengal, 1920-21.**

---

**NOTE.**—On an average of the five years ending 1918-19, the area under autumn rice in Bengal has represented some 6·2 per cent. of the total area under rice in British India.

**Character of the Season.**—Crop sowings generally commenced at the normal time in the eastern and northern districts, where the operations, however, were somewhat retarded by the excessive rain in March. The rain fall in April and May was insufficient for ploughing and sowing operations, especially in some west Bengal districts. But in eastern and northern Bengal there was adequate moisture in the soil, especially in the low-lying tracts, and the operations proceeded satisfactorily and were almost finished by the end of May, although a little more rain would have benefitted the growth of the crops. During the first part of June, the crops generally suffered from the continued drought, but the rainfall in subsequent months improved the situation. Considerable damage is reported to have been caused by drought in Birbhum, Dinajpur, Pabna, Malda and Tippera and by flood in July in parts of Midnapore. On the whole the season may be regarded as a fair one.

**Acreage.**—The total area sown with the different *bhadoi* crops this year is reported to be 5,922,000 acres against 5,991,900 acres and 5,827,800 acres respectively in the corresponding and final forecasts of last year. Of this the area under autumn rice is estimated at 5,088,200 acres this year, against 5,123,300 acres and 4,961,600 acres respectively in the corresponding and final forecasts of last year.

**Outturn.**—According to the district officers' estimates, the outturn of the different *bhadoi* crops for the province works out to 84 per cent. of the normal against 84 and 85 per cent. reported respectively in the corresponding and final forecasts of the last year. Autumn rice, the most important of the *bhadoi* crops, shows an outturn of 85 per cent. for the province this year, against 86 and 87 per cent. reported respectively in the corresponding and final forecasts of last year.

Beginning of July. Late.

The decrease in area was due to insufficient rainfall in April, May and June. Late sowing as a consequence of late rain was followed by excessive rain in July and August which affected the healthy growth of plants except in case of paddy and fibres.

The outturn is below the normal owing to unequal distribution of rainfall.

April to June. Normal.

The decrease in area under cereals, pulses, fruits and vegetables, and non-food crops was due to insufficient rainfall at sowing time. The increase on other heads was due to expansion of cultivation.

The weather has not been favourable. The recent flood has damaged the crop by about 33 per cent.

Serampur subdivision—By the end of June. Normal.

Arambagh subdivision—By the end of May. Late.

The increase in area under Bhados paddy is due to high price of food-cuffs and to bad harvest of winter paddy last year. The weather has not been favourable. There was want of rain at sowing time, but heavy rainfall afterwards has caused some damage.

In the Arambagh subdivision the crops were damaged by heavy rain to the extent of about 50 per cent.

**DEPARTMENT OF AGRICULTURE, BENGAL.**

**First Forecast of the Winter Rice Crop of Bengal, 1920-21.**

(Note.—On an average of the five years ending 1918-19, the area under Winter Rice in Bengal has represented some 12·7 per cent. of the total area under rice in British India.)

TWO crops, agriculturally distinct, are returned in the winter rice forecasts, one the broadcasted deep-water rice found mostly in Eastern Bengal and sown from the beginning of March onwards, the other and more important crop being transplanted from seed-beds in July and August. Early rainfall (not sufficient to cause flooding) suits the sowing of the broadcast crop and of seed-beds for the transplanted varieties. Good general rainfall in July and August permits of a large area of the transplanted crop being planted, while plentiful showers in October secure a full crop in those districts where the soil is, on account of its high situation or of its comparative porosity, not ideally suitable for paddy cultivation. Both crops are harvested about the same time, the main crop being generally cut in December.

**Character of the season.**—The rainfall in February and March was in excess of the normal and was sufficient for the preparatory tillage. Operations, however, were hampered in many places owing to scantiness of rainfall in April, May and the first part of June. The sowing of broadcast winter paddy and of seeds in nurseries commenced from April. The long spell of drought that prevailed up till the first part of June retarded the germination and growth of the crop in many parts, especially on high lands in some West Bengal districts. Moderate rain that fell in the latter part of June and in July and the slow rise of rivers generally improved the growth of the broadcast crop, but proved insufficient for the transplantation, of seedlings in many places, especially in the northern and some western districts. The deficiency of rainfall in July was, however, made up by the sufficient rainfall in August when a large area was put under transplantation, and the prospects of the broadcast crop since then have improved greatly. Damage by excessive rain and flood is reported from parts of Jessore, Hooghly, Howrah, Bogra, Dinajpur and Tippera. The disastrous floods in the Midnapore district caused damage to the extent of about 2 annas. The outlook, on the whole, may be regarded as favourable.

**Acreage.**—According to the figures returned by district officers the total area under the winter rice crop is 15,319,500 acres, as compared with 15,379,400 and 15,606,100 acres in the corresponding and final forecasts of last year. The decrease is to be attributed chiefly to want of rain at sowing time.

**Outturn.**—From the summary of the district returns appended it will be seen that six districts expect a normal crop; sixteen districts report a crop between 75 to 94, and the remaining five districts return between 50 to 67 per cent. of the normal. According to the above estimates, the provincial outturn works out to 83 per cent. as against 89 per cent. of the normal respectively in the first and final forecasts of last year. The averaging of district estimates for the first forecast has, however, not always proved a trustworthy means of arriving at the real provincial figures, as most of the outturn figures are based on the assumption of weather conditions prevailing at the time the reports were sent in. There is still time for the outturn of the transplanted crop to be affected by weather, and as a matter of fact the heavy rainfall of mid-September has greatly benefited the crop.

## APPENDIX I.

## First Forecast of the Winter Rice Crop of Bengal, 1920-21.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the sowing of broad casted winter rice commenced this year, and whether that date was early, normal or late.	Date by which the transplanting of winter rice commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year (1919-20.)	This year (1920-21.)	Last year.	This year.			
	Acres.	Acres.	Acres.					
24-Parganas ...	1,041,800	896,100	818,900	89	83	April; normal	July; normal	The decrease in area sown is due to want of timely rain. Though unfavourable at the beginning the weather has been favourable on the whole.
Nadia ...	136,800	130,100	168,900	67	67	April; normal	July; normal	The increase in area is due to the fact that this year's area is based on the actuals of the four thanas of the Sadar subdivision as furnished by the Settlement Officers for 1918. The weather was not favourable at the sowing time. The outturn is expected to fall below the normal for want of timely rainfall.
Murshidabad ...	351,400	318,700	290,900	88	83	Middle of June; late.	Middle of August; late.	The decrease in area is due to want of rain in the beginning which retarded the progress of transplantation, but conditions have now improved.
Jessore ...	568,100	458,500	459,100	83	83	April; normal	Latter part of June and July; rather late.	The increase in area is due to decrease in jute cultivation. The weather has been favourable for broad cast areas but rather unfavourable for the transplanted areas. About 3 annas of the crop have been damaged by flood in the Narail subdivision and 2 annas for want of rain in July.
Khulna ...	826,300	702,900	710,500	83	92	June; normal	Middle of July; normal.	The increase in area is due to favourable weather at the sowing time. Some damage has been done by drought in places.
Burdwan ...	874,400	736,000	667,700	75	83	Beginning of June to middle of August; late.	Middle of July to middle of August; late.	The decrease in area shown is due to want of timely rainfall. The weather was not favourable at the outset but has subsequently been favourable.
Birbhum ...	604,600	601,500	563,000	93	75	June; late ...	Latter part of July; late.	The decrease in area sown is due to want of timely rainfall. The weather has not been very favourable. Hence the outturn is below the normal.
Bankura ...	510,600	528,000	378,000	125	100	.....	Middle of July; late.	Monsoon commenced late. Good rainfall since the time of transplantation has helped the growth of the crop.
Midnapore ...	1,537,100	1,549,200	1,624,800	83	75	June; normal	July and August; late.	The drought at the beginning is likely to affect the growth of the crop to a certain extent. About 3 annas of the crop have been damaged by floods in the Tamluk and Ghatal subdivisions.
Hooghly ...	376,700	206,400	209,300	70	75	In Sadar subdivision, June and July; late. In Berampur beginning of July; normal. In Arambagh end of June; late.	In Sadar, July and August; late. In Berampur, middle of July; normal. In Arambagh end of July; late.	The increase in area sown is due to the high price of rice. Want of timely rain delayed transplantation in places and slight damage has also been caused by flood in the Arambagh subdivision.
Howrah ...	126,200	119,500	119,400	88	67	Middle of June; normal.	Middle of July; normal.	The weather at the sowing time was unfavourable owing to drought, and excessive rain later on caused some damage. Hence the low outturn.
Rajahmahi ...	822,700*	666,300	680,000	92	83	April; normal	Latter part of July; normal.	The decrease in area as compared with that of last year is due to want of timely rainfall. For want of timely rain both the broadcast and transplanted paddy could not thrive. The fields have not been inundated; hence the outturn is expected to fall below normal.
Dinajpur ...	1,120,300	1,029,000	784,500	80	58	...	Middle of August; late.	The decrease in area sown is due to want of timely rainfall. The weather has not been favourable. Continued drought has hindered the transplantation. Hence the outturn is expected to be much below the normal.

Jalpaiguri ...	493,700*	417,300	434,800	75	75	...	July; normal	The increase in area this year is due to the fact that this year's figure has been taken from the last settlement report. For want of sufficient rain, the outturn is expected to fall below the normal.
Darjeeling ...	63,300	25,600	25,600	100	100	April; normal	First week of July.	The weather has been favourable.
Rangpur ...	627,300	600,000	644,000	75	80	May; normal	Beginning of July; late.	The decrease in area sown is due to the scanty rainfall. The weather was unfavourable at first but has turned favourable since August. The transplantation is still going on.
Bogra ...	303,000	447,000	443,000	90	75	End of March; normal.	End of July; late.	Owing to want of rain during the period of growth and to flood in the eastern part of the district, the outturn is anticipated to fall below the normal.
Fabua ...	666,000	382,500	401,600	80	75	Latter part of April; late.	Middle of August; late.	The increase in area sown is due to high price of rice and low price of jute. The weather was favourable at the sowing time but subsequently the continued drought retarded the growth of the crop. Later on the rainfall, however, has improved the prospects of the crop to some extent. About 3 annas of the crop have been damaged by drought and want of food in some places.
Malda ...	236,300	232,000	289,300	117	60	Latter part of June; normal.	July; a little late.	The decrease in the area sown is due to want of timely rain. The weather was not favourable since sowing time up till the latter part of August. Scanty rain till August retarded the transplantation and growth of the crop. Hence the low outturn.
Dacca ...	647,900	655,300	630,300	85	100	End of March to April; normal.	July; normal	The increase in area is due to the decrease in the area under jute. The weather has been favourable for the growth of the crop.
Mymensingh ...	1,126,700	969,700	969,700	92	80	First part of April; normal.	End of July; normal.	The weather has not been favourable. More rain was wanted during the sowing time, and the crop has not therefore thrived well. Roughly estimated, about 20 per cent. of the crop has been affected by droughts.
Faizpur ...	770,100	734,100	743,300	68	94	March and beginning of April; normal.	...	The increase in the area sown is due to decrease in area under jute. The growth of the crop has been affected by insufficient rain.
Bakarganj ...	1,300,000	1,343,600	1,346,100	125	100	April and May; normal.	End of July; a little late.	The increase in area sown is due to reclamation of the Sundarbans. The weather was favourable at the sowing time but insufficient rain in July and August has affected the growth of the young seedlings and delayed the transplantation which is still going on. The outturn is expected to be normal.
Chittagong ...	418,400	480,600	421,300	92	100	May to July; normal.	July to August normal.	The increase in area sown is due to the extension of cultivation. The weather has been favourable. The outturn is expected to be normal.
Tippera ...	784,800	806,500	786,500	92	75	April; normal.	August; normal.	The weather was dry at the time of sowing but now it has turned favourable. Some damage has been done to the crop by sudden rise of water owing to heavy rainfall.
Noakhali ...	610,000	600,000	630,000	85	100	March ...	July and August; normal.	The increase in the area sown is due to decrease in the jute area. Weather was unfavourable at the time of sowing but subsequently the rainfall has improved the prospects of the crop.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 30th September 1920.

**Summary.**—During the week light scattered showers fell over the greater part of the province. More rain is urgently needed in West Bengal for winter paddy. Elsewhere prospects, so far, are generally reported to be satisfactory. Flood-water has subsided rapidly in North Bengal. The extent of damage was not so great as was anticipated. Preparatory tillage for spring crops has commenced in certain districts. The average price of common rice for the province has fallen by about 1·9 per cent. as compared with that of the previous week.

## RESOLUTION.

*Simla, the 1st October 1920.*

THE rate at which the sovereign and the half-sovereign are legal tender in India has been altered from Rs. 15 to Rs. 10 per sovereign by the Indian Coinage (Amendment) Act No. XXXVI of 1920. Also the Indian Paper Currency (Amendment) Act No. XLV of 1920 authorises the issue of currency notes against sovereigns and half sovereigns at the new rate of Rs. 10 per sovereign and against gold bullion at the corresponding rate of Rupee one for 11·30016 grains troy of fine gold. The Government of India have accordingly decided that, with effect from the 1st October 1920, sovereigns and half-sovereigns shall be valued at the rate of Rs. 10 per sovereign and gold bullion at Rupee one for 11·30016 grains troy of fine gold in all Government accounts inclusive of the accounts of the Paper Currency and Gold Standard Reserves.

2. Gold mohurs will however continue to be valued at Rs. 15 each in all Government accounts except those of the Paper Currency Reserve. Mohurs can now be held in that Reserve at their bullion value only, and when it becomes necessary to place mohurs in the Reserve hereafter, the difference between their equivalent at the 15 rupees rate and the value at which they can be held in the Reserve will be treated as an item of expenditure of Government.

3. All gold and securities held in the Paper Currency Reserve on the 1st October 1920 will be revalued in accordance with the provisions of the Paper Currency (Amendment) Act No. XLV of 1920, and the deficiency in the Reserve resulting from the re-valuation will be made up by twelve months' Treasury Bills of the Government of India issued by the Controller of the Currency to the Reserve.

(2) The Governor may disallow on grounds as aforesaid any motion for adjournment under rule 11, notwithstanding the consent of the President, and if he does so the adjournment shall not be permitted by the President and no further discussion of the motion shall take place.

(2) The decision of the Governor on the point whether any resolution is or is not within the restrictions imposed by sub-rule (1) shall be final.

24. A copy of every resolution which has been passed by the Council shall be forwarded to the Government, but any such resolution shall have effect only as a recommendation to the Government.

27. The Budget shall be dealt with by the Council in two stages, namely :—

- (ii) the voting of demands for grants.

28. (1) On a day to be appointed by the Governor subsequent to the day on which the Budget is presented and for such time as the Governor may allot for this purpose, the Council shall be at liberty to discuss the Budget as a whole or any question of principle involved therein, but no motion shall be moved at this stage, nor shall the Budget be submitted to the vote of the Council.

(2) The Finance Member shall have a general right of reply at the end of the discussion.

(3) The President may, if he thinks fit, prescribe a time-limit for speeches.

29. (1) Not more than twelve days shall be allotted by the Governor for the discussion of the demands of the local Government for grants.

(2) Of the days so allotted, not more than two days shall be allotted by the Governor to the discussion of any one demand. As soon as the maximum limit of time for discussion is reached, the President shall forthwith put every question necessary to dispose of the demand under discussion.

(3) On the last day of the allotted days at 5 o'clock the President shall forthwith put every question necessary to dispose of all the outstanding matters in connection with the demands for grants.

30. (1) No motion for appropriation can be made except on the recommendation of the Governor communicated to the Council.

Motions at this stage.

(2) Motions may be moved at this stage to omit or reduce any grant or any item in a grant, but not to increase or alter the destination of a grant.

(3) When several motions relating to the same demand are offered, they shall be discussed in the order in which the heads to which they relate appear in the Budget.

(4) No motion shall be made for the reduction of a grant as a whole until all motions for the omission or reduction of definite items within that grant have been discussed.

31. When money has been spent on any service for which the vote of Council is necessary during any financial year in excess of the amount granted for that service and for that year, a demand for the excess shall be presented to the Council by the Finance Member and shall be dealt with in the same way by the Council as if it were a demand for a grant.

Excess grants.

32. (1) An estimate shall be presented to the Council for a supplementary or additional grant when—

(i) the amount voted in the Budget of a grant is found to be insufficient for the purposes of the current year, or

Supplementary or additional grants.

(ii) a need arises during the current year for expenditure for which the vote of the Council is necessary upon some new service not contemplated in the Budget for that year.

(2) Supplementary or additional estimates shall be dealt with in the same way by the Council as if they were demands for grants.

The remaining members shall be nominated by the Governor.

(3) The Finance Member shall be Chairman of the Committee, and, in the case of an equality of votes on any matter, shall have a second or casting-vote.

**21.** After the disposal of appeals, if any, under section 20, sub-section (2), the Collector shall confirm the statement, with modifications, if any, and shall proceed in the prescribed manner to recover from the local authority, person, landlord or tenant concerned, the amount of the cost due from them.

Recovery of arrears as arrears of land-revenue.

**22.** All arrears shall be recoverable in the prescribed manner as if they were arrears of land-revenue.

*Miscellaneous.*

Compensation for consequential damage.

**23.** Whenever any land, other than land taken or acquired for the purposes of this Act, or any right of fishery, right of drainage, right of the use of water, or other right of property, is injuriously affected by any act done, or any work executed under this Act, the person in whom such property, or right is vested may prefer a claim by petition to the Collector, for compensation :

Provided that the refusal to execute any work for which application is made, and the refusal of permission to execute any work for the execution of which the permission of the Collector or any other authority is required under this Act, shall not be deemed acts on account of which a claim for compensation can be preferred under this section.

Limitation to claim for compensation.

**24.** (1) No claim under section 23 shall be entertained which is made later than three years after the completion of the work by which such right is injuriously affected.

(2) For the purposes of this section, the date of the completion of the work shall be the date of the publication of the statement and particulars referred to in section 18, sub-section (2).

Procedure for determining compensation.

**25.** When any such claim is made, proceedings shall be taken with a view to determine the amount of compensation, if any, which should be made and the person to whom the same should be payable, so far as possible in accordance with the provisions of the Land Acquisition Act, 1894.

I of 1894.

Matters to be considered in determining compensation.

**26.** In any such case which is referred by the Collector to the Court for the purpose of determining whether any, and, if so, what amount of compensation should be awarded, the Court shall take into consideration—

*First*, the market value of the property or right injuriously affected at the time when the act was done or the work executed;

*The Bengal Agricultural and  
(Miscellaneous.—Sections 27—29.)*

*Secondly*, the damage sustained by the claimant by reason of such act or work injuriously affecting the property or right;

*Thirdly*, the consequent diminution of the market value of the property or right injuriously affected when the act was done or the work executed;

*Fourthly*, whether any person has derived, or will derive, benefit from the act or work in respect of which the compensation is claimed, or from any work connected therewith, in which case they shall set off the estimated value of such benefit, if any, against the compensation which would otherwise be decreed to such person :

Provided that the Court shall not take into consideration—

*First*, the degree of urgency which has led to the act or work being done or executed;

*Secondly*, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

Additional costs.

**27.** If, after the apportionment of the cost of the work as above provided, any expenses not included in such apportionment shall be found to have been paid, or to have become payable, on account of the said work, whether as compensation, or otherwise, or if the amount recovered is insufficient to cover the cost of the scheme, the Collector may proceed to distribute, apportion and recover such additional cost, or deficiency; and the procedure set out in section 18 and the following sections shall then apply.

Drainage works subject to laws relating to public embankments.

**28.** All outlets and water-channels, natural or artificial, included in a scheme under this Act, whether reconstructed, cleared, altered, enlarged, excavated or cut under this Act or not, and the construction and maintenance of embankments and dams and works therein, or connected therewith, shall be subject to the law for the time being in force regulating the construction and maintenance of public embankments, rivers, channels and outlets.

## RESOLUTION ON THE ANNUAL REPORTS OF THE VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1919-20.

### GOVERNMENT OF BENGAL.

#### REVENUE DEPARTMENT.

##### Agriculture.

CALCUTTA, THE 9TH OCTOBER 1920.

RESOLUTION—No. 9179Agri.

#### READ—

The annual reports of the Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1919-20.

COLONEL A. SMITH, Principal, Bengal Veterinary College, held charge of the College throughout the year. Mr. P. J. Kerr joined the College as Second Imperial Officer towards the close of the year on the 26th March 1920. Colonel A. Smith also held charge of the Civil Veterinary Department on

account of the absence of the Superintendent on deputation to military duty, up to the 20th July 1919, when he was relieved of his additional duties by Mr. A. D. MacGregor.

2. The number of students at the Bengal Veterinary College at the end of the session was 158, of which number 64 belonged to Bengal, 56 to Bihar and Orissa and the rest to other provinces. Owing to 14 students leaving the College, there was a slight fall in the number of students, as compared with the preceding year's figure, which was 165; but there was a larger number of better qualified students. During the year 32 students graduated from the College, of whom nine belonged to Bengal. All the new graduates have been employed as veterinary assistants.

3. Though too much importance should not be attached to the comparison, the report of the Civil Veterinary Department shows a small decrease in the mortality of animals from contagious diseases during the year, the total number of deaths reported being 14,898 as against 15,569 in the previous year. There was, however, a noticeable increase in mortality from rinderpest, the number of deaths from which was 12,178 as against 10,772 in the previous year. This increase is primarily due to heavy outbreaks in the Tippera district. There were in all 537 outbreaks of rinderpest, hæmorrhagic septicæmia, and anthrax and 84,896 animals were inoculated as against 67,083 animals in 426 outbreaks in the previous year. The death-rate amongst the inoculated was only .4 for the whole province; on the other hand seventeen times as many uninoculated animals died during the outbreaks. Leaflets dealing with the prevention and treatment of cattle diseases were freely distributed. The Governor in Council notices with satisfaction that the Superintendent, Civil Veterinary Department, is taking keen interest in the matter and is explaining more practical methods of work to veterinary assistants so that they may make themselves more useful to the people. Steps have also been taken to improve the agency for reporting outbreaks.

4. During the year under report the itinerant veterinary assistants visited 12,831 villages and treated 58,761 animals as against 13,462 villages and 58,025 animals in the previous year.

5. In Calcutta and its suburbs all the stables and cattle-sheds were regularly inspected. Glanders and farcy were detected in 30 stables and surra in 2, against 13 and 4, respectively, in the previous year. In the mufassal 7 deaths from glanders were reported as against 17 in the previous year.

6. The number of stud bulls kept by Government and local bodies increased from 104 in the previous year to 124 in the year under report. Of these 57 are the property of local bodies. The Governor in Council notices with satisfaction that a record is now being kept by the veterinary assistants of the services of stud bulls and of their results.

7. Four new dispensaries were established during the year, thus bringing the total number of such institutions up to 35 whilst it is satisfactory to note that other dispensaries are under contemplation. The number of patients treated at these dispensaries was 44,747 as against 43,312 in the previous year.

8. In accordance with paragraph 8 of the resolution on the last year's report, veterinary sub-committees were appointed in some districts: the scheme will be tried throughout the province in the current year. It is hoped that the members of the sub-committees will take an active interest in the work and thus prove their utility in dealing with the veterinary work of the districts.

9. The work of the Deputy Superintendent, Civil Veterinary Department, Veterinary Inspectors and the staff of the Bengal Veterinary College continued to be satisfactory.

His Excellency in Council has much pleasure in acknowledging the valuable services of Colonel Smith and in recording his appreciation of the work done by Mr. A. D. MacGregor.

By order of the Governor in Council,

M. C. McALPIN,

*Secy. to the Govt. of Bengal.*

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 7th October 1920.

**Summary.**—During the week, moderate rain fell over the greater part of North and East Bengal. Elsewhere the fall was generally light. The October rainfall, which is the mainstay of the winter paddy crop, is urgently needed, especially in West Bengal. The prospects of deep-water paddy are generally promising and those of transplanted paddy are fair. Preparation of lands for and sowing of pulses continues in certain districts. The average price of common rice for the province has fallen by about 0·87 per cent. as compared with that of the previous week.

**DRAFT****NOTIFICATION.**

In exercise of the powers conferred by clause (k) of section 138 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Governor in Council is pleased to make the following rules for the establishment, maintenance and management under the said Act of hospitals and dispensaries following systems of medicines other than Allopathic :—

**PRELIMINARY.**

In these rules, “Local Fund” means any fund under the control or management of a local authority.

**OPENING AND CLOSING OF DISPENSARIES.**

1. A dispensary may be opened or aided by a local authority with the sanction of the Chairman of the District Board and on provision of the necessary funds in the annual budget. It may be closed by the same authority.

2. Whenever a new dispensary is opened by a local authority or when a grant-in-aid is made to a private dispensary from a local fund, the fact should be reported by the local authority to the Civil Surgeon of the district and the Surgeon-General with the Government of Bengal, with information on the following points :—

(a) The name of the dispensary.

(b) Whether there is arrangement in the dispensary for the treatment of in-door patients, and if so, the number of beds for male and female patients.

(c) The system of treatment followed in the dispensary, i.e., whether Ayurvedic (Kaviraji), Unani (hakimi), Homœopathic or any other system.

- (d) Date of opening of the dispensary or the date of granting of the aid.
- (e) Estimated annual cost of the maintenance of the dispensary.
- (f) The name of the person or authority with whom the ultimate responsibility for the maintenance of the dispensary rests, if with a private body or private individual, the amount of aid granted by the local authority should be stated.

#### MANAGEMENT AND SUPERVISION.

3. The management of a dispensary shall be vested in a Managing Committee appointed by the local authority or the private body or private individual with whom the ultimate responsibility for its maintenance rests, subject to the veto of the Commissioner of the Division. The members shall be notified by the Commissioner in the *Calcutta Gazette*.

*N.B.*—A Civil Surgeon or a Subdivisional Medical Officer shall not be a member of the Managing Committee.

4. The members shall elect from among themselves one Chairman and one Secretary.

5. No employee of the dispensary shall be eligible for appointment as a member of the Managing Committee.

6. Every member of a Managing Committee shall vacate his office at the end of three years from the date of his appointment as such member, or earlier when the term of office of the members of the local authority by which the Committee is appointed expires.:

Provided that the term of office of the members of the Committee shall be held to include any period which may elapse between its expiration and the date of the first meeting of a new Committee appointed to take its place.

7. A member of a Committee appointed under rule 3 may at any time be removed from office by the local authority or by the private body or private individual by whom the Committee was appointed.

8. If any member is unable to complete his full term of office or avails himself of leave granted by the Committee, the vacancy caused by his resignation or removal or death or absence on leave, shall be filled up by the appointment of another person, and the person so appointed shall hold office for the unexpired remainder of the term for which such member would otherwise have continued in office or during his absence on leave, as the case may be.

9. The Managing Committee shall hold meetings at such intervals as may be necessary, not less than once a quarter, to enable them to exercise an efficient scrutiny over the accounts and to enquire into all matters affecting the welfare of the institution.

10. One-third of the total number of members shall form a quorum at any meeting.

11. The Managing Committee shall examine and pass the monthly accounts and shall keep a minute book in which their proceedings shall be recorded. The accounts shall, however, be passed regularly each month by the Chairman of the Managing Committee, or in his absence by the Secretary.

12. The Managing Committee shall be responsible for the management of the funds of the dispensary. It shall be their duty to see that the guaranteed and promised subscriptions are regularly collected. After defraying the current expenses of the institution, the balance at the end of the month, if any, of the donations, subscriptions and interest realised by the Committee shall be deposited by them in the Post Office Savings Bank.

13. When the amount at credit of the dispensary exceeds Rs. 200, the Comptroller-General shall ordinarily be asked to invest the whole or part of it in Government securities, which shall be held in the custody of the Accountant-General, Bengal. The securities must not be sold and the invested funds must not be appropriated or used in any way without the sanction of Government.

Nothing in this rule or in the preceding rule shall prevent the Managing Committee from accepting as a contribution to the funds of the institution shares or a deposit in a Co-operative Central Bank or money offered with the express instruction that it shall be invested in such shares or shall be so deposited. Neither shall it be necessary to convert shares or deposits so received into Government securities. Contributions in the form of partly paid up shares with a liability attaching to them should be carefully scrutinized and should not be accepted without the previous orders of Government.

14. The Managing Committee shall submit to the Medical Department, through the Civil Surgeon of the district, an annual return in the following form:—

Annual Return of patients treated in the						Dispensary during the year.				
NUMBER OF BEDS.			TOTAL NUMBER TREATED.			DAILY AVERAGE.			REMARKS.	
Male.	Female.	Total.	Male.	Female.	Total.	Male.	Female.	Total.		
In-door ...										
Out-door ...										

15. Every dispensary is subject to inspection and supervision by the Commissioner of the Division, by the Civil authorities of the district, by the Civil Surgeon, by the administrative officers of the Medical Department and any other person who may be generally or specially appointed by Government or the Local authority for the purpose. No charge will be made for such inspection and supervision.

#### PREPARATION OF BUDGET AND METHOD OF KEEPING ACCOUNTS OF LOCAL-FUND DISPENSARIES.

##### *Preparation of dispensary budget.*

16. The Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in annual Statement II (B. C. M. D. Form No. 22), and submit it to the local authority on a date fixed by that authority. No expenditure shall be incurred in excess of the amounts sanctioned, unless previous sanction has been obtained to either a reappropriation of grants or an additional grant obtained from the local authority.

##### *Method of keeping accounts where funds are under direct control of local authority.*

17. As regards these dispensaries the interest on the investments will be accounted for by the local authority direct. But all donations and subscriptions will be collected by the Managing Committee, and paid into the Savings Bank at the Post Office. The account shall be in the name of the Chairman or Secretary of the Committee. The whole amount collected shall be sent intact to the Savings Bank. Amounts required for expenditure may be withdrawn according to requirements, but there shall be in support of each payment a duly vouched bill passed by either the Chairman or Secretary, and the total expenditure under any head in the budget shall not be exceeded without the sanction of the local authority.

18. The Managing Committee shall maintain a subscription register in B. C. M. D. Form No. 6, in which the initials or signature of the donor must be taken. The collections of the month shall be totalled from this register or the Savings Bank Pass-Book and the total entered on the receipt side of the cash-book (B. C. M. D. Form No. 8). Interest allowed by the Post Office shall be shown against "Miscellaneous."

"N. B.—This rule is applicable also to the private hospitals or dispensaries receiving aid from local fund."

19. All disbursements in respect of these dispensaries shall be either made from the imprest in the hands of the Medical Officer in charge or from the money withdrawn according to requirements from the Savings Bank or by the local authority concerned on bills duly passed by the Managing Committee by issue of cheques upon the treasury. The Medical Officer shall from time to time present bills in recoupment of his imprest supported by payee's receipts. Payments met by withdrawal from the Savings Bank or by cheque from the parent local authority shall be entered on the payment side of the cash-book (B. C. M. D. Form No. 8), in the appropriate column.

Payments met out of the imprest shall be recorded in an Imprest Register (B. C. M. D. Form No. 60). Charges to be ultimately recouped by the local authority shall be entered in the appropriate column under the heading "Payable by local authority," and charges to be recouped by withdrawal from Savings Bank shall be entered in the appropriate column under the heading "Payable from Savings Bank." Whenever the imprest runs low and always at the end of the month, two recoupment bills will be prepared—one for payment by the local authority and one for withdrawal from the Savings Bank. The sub-vouchers appertaining to the former shall be submitted with the bill to the local authority. The totals under each column of the Imprest Register will be entered in the corresponding column of the cash-book when the recoupment bills are cashed.

20. The Managing Committee shall, by the 4th of each month, submit a copy of the cash-book for the previous month, with all vouchers, to the local authority for verification and incorporation in their accounts.

21. The amount of monthly subscriptions guaranteed by the local people when starting the dispensary shall be paid to the local authority every month. The payment shall be entered in column 16 of the payment side of the cash-book and shall also be entered on the receipt side against the head "Guaranteed subscription paid to local authority," a corresponding deduction being made under the head "Receipts."

#### GENERAL.

##### *Record of work and of accounts to be kept by Managing Committee.*

22. The Managing Committee of every hospital or dispensary shall cause to be kept at the institution—

- (a) a record of the work done, showing day by day the number of patients treated, the affections for which they were treated, and, in important cases, some account of the symptoms, the treatment, progress, and the result,
- (b) a record of the accounts of the institution.

These shall be written up daily by the Medical Officer in charge, and shall be open at all times to the inspection of inspecting officers.

The Medical Officer shall write up all other books and records prescribed under these rules.

##### *Visitors' book.*

23. A visitors' book shall be kept in every hospital and dispensary in which will be recorded the remarks of visitors.

##### *Responsibilities of Medical Officer.*

24. The Medical Officer in charge of a hospital or dispensary is responsible for the proper treatment of the sick, and this duty shall not on any account be delegated to a subordinate; he is also responsible for all matters connected with the comfort and well-being of the patients and for the proper working of the establishment of the institution.

---

*Hours of attendance.*

25. The Managing Committee shall prescribe the hours of attendance (which shall not be less than four hours in the morning and two hours in the afternoon) within which the Medical Officer must be present at the hospital or dispensary. He must also give attention to urgent cases at other hours.

The hours of attendance shall be clearly stated in a notice posted in some conspicuous part of the institution.

*Advice and medicines to be free.*

26. Any person attending at a charitable dispensary is entitled to receive advice and medicines free of charge; but the Medical Officer should impress upon any person who is not poor the duty of subscribing to the dispensary or paying for the medicines supplied to him, and should bring to the notice of the Committee any cases in which the privilege is abused.

*Issue of medicines.*

27. No medicines shall be issued from the dispensary stock to any one who does not receive treatment at the dispensary either as an indoor or as an out-door patient.

*Scale of fees for accommodation of paying patients.*

28. Where special accommodation has been provided for paying patients, fees may be levied according to a scale previously sanctioned in that behalf by the Managing Committee.

*Private practice.*

29. The Medical Officer in charge of a hospital or dispensary has the privilege of engaging in private practice, provided it does not interfere with his attendance at the hospital or dispensary during the hours prescribed in rule 25, or in any other way with his duties.

*Prohibition of interest in private dispensary or druggist's shop.*

30. No Medical Officer in charge of a hospital or dispensary, or any compounder dresser, or other servant of such institution, shall have any interest in a private dispensary or druggist's shop. In places where there is no approved druggist's shop or private dispensary, a Medical Officer may, with the consent of the Managing Committee, keep a private supply of medicine for the use of his private patients.

*Storage of medicines, instruments and poisons.*

31. Medicines and instruments shall be kept under lock and key, except small quantities of the articles in daily use during the attendance of patients.

32. Poisons should be stocked in special bottles and kept under separate lock and key which should remain in the custody of the Medical Officer in charge of the hospital or dispensary: the doses in which these drugs are usually administered internally should be legibly written on a conspicuous label. A list of poisons should be hung up in the almirah specially reserved for such drugs.

*Appointment and discharge of compounders, dressers and menial servants.*

33. Menial servants will be appointed and discharged by the Medical Officer in charge subject to the approval of the Managing Committee of the institution. Compounders and dressers will be appointed and be liable to removal by the Managing Committee.

*Prohibition of private employment of servants.*

34. Whole-time servants must not be employed in the private service of the Medical Officer, or of any member of the Managing Committee.

*Disposal of non-infected clothing and property of deceased patients.*

35. Articles of clothing which are not infected, and other moveable property belonging to deceased in-door patients, should, unless, in the case of Indian patients to whom section 54 of Act III of 1913 does not apply, there are heirs to whom the property may be made over, be sent through the police to the local Munsiff or District Judge for disposal under the provisions of Regulation V of 1799. In the case of European or other patients to whom section 54 of Act III of 1913 applies, there is no obligation on the hospital authorities to report the death to the Judge or to send to him the property of the deceased. It may be taken away by the relations or friends of the deceased, if there are any present. If not, the hospital authorities may keep any moveable property left by the deceased until the friends or relations of the deceased can take them away. If no application is made within six months the articles may be sent to the District Judge with a report of the death of the deceased. In making over such property or allowing such property to be taken away, the hospital authorities will exercise due care and caution, and will advise the parties that they are not legally entitled to possession of these until they have complied with the provisions of law on the subject of the effects of deceased persons, and that they are permitted to remove the property at their own risk.

A receipt for the goods should be taken in a register to be kept for the purpose or on a separate paper which should be filed.

#### ----- TRADE AFTER THE WAR.

*Simla, the 9th October 1920.*

No. 6783.—The following Notice to Importers in Great Britain and Ireland and to Exporters in British Overseas Dominions on the subject of preferential duties of Customs in Great Britain and Ireland on goods consigned from and grown, produced, or manufactured in the British Empire issued by His Majesty's Board of Customs and Excise is published for general information in continuation of this Department Notification No. 7386, dated the 20th September 1920:—

### **NOTICE TO IMPORTERS IN GREAT BRITAIN AND IRELAND and to EXPORTERS IN BRITISH OVERSEAS DOMINIONS.**

#### **Preferential Duties of Customs in Great Britain and Ireland on Goods Consigned from and Grown, Produced, or Manufac- tured in the British Empire.**

1. With a view to conferring a preference in the case of Empire products, the duties of customs on the goods specified in Appendix A are charged at the reduced rates shown in the second column of that Appendix, provided the goods are shown to the satisfaction of the Commissioners of Customs and Excise to have been (1) consigned from, and (2) grown, produced, or manufactured in, the British Empire. The “British Empire” for this purpose means all British Dominions outside Great Britain and Ireland, including British India and Indian Native States, and all British Protectorates. Any territories which may hereafter come under His Majesty's Protection, or in respect of which a Mandate of the League of Nations may be exercised by the Government of any part of His Majesty's Dominions, may be included by Order in Council.

2. Goods are not deemed to have been manufactured in the British Empire unless such proportion of their value as is prescribed by regulations made by the Board of Trade (printed as Appendix B) is the result of labour within the British Empire. This proportion has for the present been fixed at 25 per cent. of the factory or works cost to the manufacturer for all manufactured articles except manufactured tobacco, refined sugar, molasses, and extracts from sugar, for which the proportion is fixed at 5 per cent. (but see paragraph 3).

Each article is to be considered separately in applying the percentage test. The factors which may be taken into account in arriving at the total value and the proportion of Empire labour are laid down in Regulations 4 and 5 (Appendix B).

When manufactured goods are not liable to duty in themselves, but only in respect of the dutiable ingredient or ingredients they contain, preference can only be granted in respect of such of the ingredients as themselves satisfy the requisite conditions (*see* paragraphs 8-10 below).

3. Where the Board of Trade is satisfied as respects any class of goods to which the preferential rates apply that those articles are to a considerable extent manufactured in the British Empire from material which is not wholly grown or produced in the Empire, the Board may by order direct that the preferential rate shall be charged only in respect of such proportion of those goods as corresponds to the proportion of dutiable material used in their manufacture which is shown to have been grown or produced in the Empire.

This provision has been applied by Order of the Board of Trade (Appendix C) to manufactured tobacco, refined sugar, molasses and extracts from sugar, *e.g.* syrup. It is in view of this limitation that the percentage under paragraph 2 has been fixed as low as 5 per cent. for these articles, the combined effect of the two rules being to allow preference where any of these articles are the result of an appreciable amount of Empire labour, but to confine it to the extent to which the finished article is the result of Empire material.

4. The dutiable articles which for the purpose of charging the preferential rate are considered as manufactured articles are:—

Refined sugar.

Glucose.

Molasses and extracts from sugar (*e.g.*, syrup).

Saccharin.

Manufactured tobacco.

Cinematograph films.

Motor cars, parts, accessories, etc.

Musical instruments, parts, accessories, etc.

Clocks, watches, etc.

All other dutiable goods are regarded as growth or produce. The term refined sugar means sugar which has passed through a refinery.

5. Where goods are manufactured in a bonded factory in Great Britain or Ireland from dutiable material shown to the satisfaction of the Commissioners of Customs and Excise to have been consigned from, and grown or produced in, the British Empire, the duty on the manufactured goods shall, to the extent to which they are shown to have been manufactured out of such material, be charged at the preferential rate.

This provision applies to sugar refiners and tobacco manufacturers who work in bond.

6. The preferential rate of duty must be claimed by the importer at the time of making entry. He is required in every case to substantiate the declarations on the entry that the goods were (1) consigned to the United Kingdom from, and (2) the growth, produce or manufacture of, a part of the British Empire, by means of a certificate of origin in the approved form. He must also, if called upon to do so by the Collector of Customs and Excise, produce any other evidence of origin, such as the supplier's invoice, bill of lading, etc.

7. Certificates of origin are in three prescribed forms, illustrated in Appendices D, E and F to this Notice. Each form comprises two separate certificates, viz.—

- (i) A certificate that the dutiable articles in respect of which preference is claimed are the growth or produce (Appendix D) or the manufacture or refining (Appendices E and F) of a specified country in the British Empire. This certificate must be given as regards Appendix D, by the overseas grower, producer or supplier,\* and as regards Appendix E by the overseas manufacturer. In the case of refined sugar, molasses and extracts from sugar, or manufactured tobacco, the amplified certificate (Appendix F), giving also the proportion of Empire-produced dutiable material, must be given by the overseas manufacturer or refiner.

Where, owing to local trade conditions, it is impracticable for certificates of origin in Form D to be signed by the up-country grower or producer, there is no objection to the certificates being signed by their accredited agents in the country of origin having the necessary knowledge of the facts, provided that (1) the certificate clearly shows that the agent is authorized to sign on behalf of the grower or producer, and (2) the certificate is a personal one signed by a responsible member of the issuing firm. This concession does not extend to agents for *suppliers*, nor to agents acting merely as carrying agents.

- (ii) A supplementary certificate to be given by the actual exporter in cases where the grower, producer, manufacturer, refiner or supplier, who furnishes Certificates D, E or F, is not himself or by his agent the actual exporter and is not in a position to give the particulars of shipment, destination and consignee required to render the main certificate complete. This supplementary certificate is not however required to be given on Forms D, E and F, when the latter are given in conjunction only with Form FF (*see* paragraph 8), in which case its place is taken by a similar supplementary certificate on Form FF.

8. An additional form of certificate (Appendix FF) is required in conjunction with Forms D, E or F where the dutiable article in respect of which preference is claimed is an ingredient only of a complete composite article, and the latter therefore is liable to duty only by reason of containing the dutiable ingredient. This additional certificate is to be given by the overseas manufacturer of the composite goods, as evidence that the dutiable articles, in respect of which preference is claimed and certificate D, E or F has been furnished by the grower, etc., have been used in the manufacture of the composite goods. Certificate E is not required from the manufacturer of the composite goods, as they are not dutiable nor entitled to preference in themselves but only by virtue of the dutiable ingredients they contain. The following examples are given by way of illustration. Manufactured cocoa powder is chargeable to duty in respect of the raw cocoa it contains, and Certificate FF should be given by the manufacturer, supported by Certificate D given by the grower, producer or supplier of the raw cocoa. Chocolate confectionery is chargeable in respect of the raw cocoa and the refined sugar it contains, and certificate FF should be given by the chocolate maker, supported by certificate D from the grower, producer or supplier of the raw cocoa, and Certificate F from the sugar refiner (either or both, according as preference is claimed for either the cocoa, the sugar or both). Jam and condensed milk (sweetened) are chargeable by reference to the sugar they contain, and Certificate FF should be given by the manufacturer, supported by Certificate F from the sugar refiner.

Form FF also contains a supplementary certificate to be given by the actual exporter where the manufacturer of the composite goods who furnishes Certificate FF is not himself or by his agent the actual exporter, and is not in a position to give the particulars of shipment, destination and

\* By the term "supplier" is meant any person who, though not being the grower or producer, is the actual overseas owner of the goods at the time of export to the United Kingdom, provided he has the requisite knowledge of the facts. Such person should be careful to describe themselves on the certificate as "suppliers" and not as "exporters" merely.

consignee required to render the Certificate FF complete. Where this supplementary certificate is given on Form FF it is not to be given on the Form D, E or F relating to the dutiable ingredients.

9. It is to be noted that Certificates D, E and F in all cases apply solely to the dutiable articles themselves (whether imported by themselves or as an ingredient), and that the title of any dutiable article to preference depends solely upon its fulfilling the conditions of Empire consignment and growth, production or manufacture in itself, and without reference to any other ingredients with which it may be associated in composite goods.

10. If composite goods contain more than one dutiable ingredient (*e.g.*, cocoa and sugar in chocolates and confectionery) the appropriate Certificates D, E or F must be given separately in respect of each dutiable ingredient for which preference is claimed, but one Certificate FF may be given to cover all dutiable ingredients contained in one description of composite goods, provided the whole quantity of each such ingredient used in the composite goods is covered by a certificate D, E or F. If however any one dutiable ingredient comprises a proportion covered by a certificate D, E or F and entitled to preference and a portion not so covered or entitled, a separate certificate FF must be given for such ingredient, showing the percentage thereof covered by the certificate D, E or F. The preferential reduction of duty will be regulated accordingly.

For example, if the raw cocoa used in the manufacture of imported Canadian chocolate confectionery is 60 per cent. of Trinidad growth and 40 per cent. of Venezuelan growth, separate certificates on Form FF must be given for the sugar and raw cocoa ingredients, and in the case of the latter the percentage covered by Certificate D must be stated. Preference in the proportion of 60 per cent. will then be allowable as regards the portion of the duty charge attributable to cocoa.

11. If the Collector is satisfied by the production of the certificate or certificates he will forthwith admit the goods to entry as entitled to the preferential rate. The Collector may in any case of doubt or of an incomplete or informal certificate, call for the production of invoices, bills of lading, or any such further evidence as he may require, but pending the production of such evidence he may, unless he has reason to suspect an attempt at fraud, allow delivery of the goods on deposit of the full rate of duty, subject to adjustment, provided satisfactory evidence of the title to the preferential rate is produced without undue delay. In the case of goods entered to be warehoused, the Collector may allow the goods to be deposited in warehouse pending settlement of the rate of duty to which they may be decided to be liable.

12. The preferential rates apply in the case of dutiable goods entered for warehousing, or already in bond, before the 1st September 1919 (in the case of tea before 2nd June 1919), and the particulars of consignment and origin as recorded in the official accounts are usually accepted. The same rule is applied in respect of Empire and non-Empire goods blended or put together in bond before the 1st September 1919. In the case of blends, duty will be charged at preferential rates on the proportion of Empire goods shown to be contained therein. It must be understood that where the official records are not sufficient to establish Empire consignment and origin the onus of proof in all cases rests by law on the importer.

13. In the case of Empire goods consigned to the United Kingdom which have been transhipped *en route* or have been shipped from a foreign port after overland transit from the Empire country of origin, the importer at the time of making entry will be required to produce the through bill of lading or railway consignment note from the country of production to the United Kingdom in support of the certificate of origin. Where a through bill of lading or consignment note is not available, the invoice, local bill of lading or consignment note from the original point of origin and certificate of arrival or landing at, and exportation from, the port of transshipment will be required. Such certificates are to be signed by the proper Colonial or Foreign Customs Officer at the port of transshipment, and in the case of the latter the signature must be visaed by the British Consular Authority. It is essential to prove that the goods were consigned from a part of the Empire to the United Kingdom, and not to a foreign country from which they were subsequently re-consigned to the United Kingdom.

14. In the case of post parcels arriving from a part of the Empire, if the contents are not merchandise for sale and do not exceed £10 in value for

any one addressee, the following short form of certificate will, in the absence of ground for suspicion, be accepted as satisfactory evidence of origin for charging the preferential rate of duty, except in the case of manufactured tobacco, refined sugar, molasses and extracts from sugar:—

“ The contents of this package are not merchandise for sale, and every dutiable article herein is the growth or produce, or, if a manufactured article, is to the extent of at least one-fourth of its present value *bona fide* the manufacture of (Empire country of origin).”

All other post parcels, including all parcels containing manufactured tobacco, refined sugar, molasses and extracts from sugar, etc., will be subject to the ordinary rules of evidence of origin applicable to merchandise generally as set out in the earlier part of this Notice.

15. The prescribed forms of Certificate of Origin are printed as Customs Sale Forms (Nos. 119 to 122), and may be obtained from H. M. Stationery Office direct or through the usual agents.

16. Copies of this Notice may be obtained at any Custom House or office of a Collector of Customs and Excise in Great Britain or Ireland.

REGULATIONS AS TO THE PROPORTION OF VALUE RESULTING FROM LABOUR  
WITHIN THE BRITISH EMPIRE.

In pursuance of section 8 of the Finance Act, 1919, the Board of Trade hereby make the following regulations:—

- (1) Save as hereinafter provided, goods shall not be deemed, for the purposes of section 8 of the Finance Act, 1919, to have been manufactured in the British Empire unless at least 25 per cent. of their total value is the result of labour within the British Empire.
- (2) In the case of those classes of goods in respect of which an Order has been made by the Board of Trade under section 8, sub-section (2) of the Finance Act, 1919, no part of the goods shall be deemed to have been manufactured in the British Empire unless at least 5 per cent. of the total value of the goods is the result of labour within the British Empire.
- (3) Where a number of separate articles are included in one parcel or shipment, each and every article shall be considered separately for the purpose of calculating the proportion of value due to labour within the Empire.
- (4) For the purposes of these regulations the total value of an article shall be its cost to the manufacturer at the factory or works and shall include the value of containers and other forms of interior packing ordinarily sold with the article when it is sold retail, but shall not include the manufacturer's or exporter's profit of the cost of exterior packing, carriage to port and other charges incidental to the export of the goods subsequent to their manufacture.
- (5) In calculating the proportion of value which is the result of labour within the British Empire there may be included under the head of labour the cost to the manufacturer of any materials of purely Empire origin entering into the composition of the article [including the interior packing specified in Regulation (4)], the cost of manufacture including wages, proportion of fuel, supervision and other factory expenses, and the cost of the labour of packing for retail sale.

The following may not be included in the proportion of value which is the result of Empire labour, namely, any materials or interior packings not entirely of Empire origin, manufacturer's profit or the profit or remuneration of any trader, agent, broker or other person dealing in the article in its finished condition, the expenses of placing the goods in outside packages for export and the cost of such packages, transportation charges, insurance and any other charges for services after the goods leave the place of production or manufacture.

(6) Any question arising on the interpretation of these regulations shall be referred to the Board of Trade whose decision shall be final.

C. A. INNES,

*Secretary to the Govt. of India.*

The following Resolution, issued by the Government of India in the Board of Industries and Munitions, published in the *Supplement to the Gazette of India*, dated the 11th September 1920, is republished for general information.

H. L. STEPHENSON,

*Chief Secy. to the Govt of Bengal.*

No. M.-36.

#### **Mining and Geological Education.**

#### **RESOLUTION.**

*Simla, the 11th September 1920.*

The provision of facilities in India for high grade instruction in mining and geology has for some years past engaged the attention of the Government of India and of the Governments of Bengal and Bihar and Orissa. In 1913 the Government of Bengal appointed a Committee under the Presidency of Sir Duncan McPherson to consider the question of mining education in Bengal and Bihar and Orissa. In 1914-15 another small Committee consisting of mining experts, after examining the system of mining education in England, submitted a report which was in general agreement with the proposals of the McPherson Committee. The Indian Industrial Commission devoted considerable attention to the subject of mining and metallurgical education and dealt with it in detail in Chapter X of their Report. The subject was further examined by the Calcutta University Commission who have embodied their recommendations with regard to mining education in Chapter XLVI, Volume V, of their Report. The Government of India have also had the question under consideration in connexion with recruitment for the Indian Mines Department.

2. The existing provision in India for high grade instruction in geology is even less satisfactory than in the case of mining. The Public Services Commission recommended the early establishment in India of a School of Geology which would rank with similar institutions in Great Britain and give equal opportunities for the scientific study of the subject. The Government of India are aware that the demand for highly trained geologists in India though small is steadily increasing with the growing sense on the part of the educated classes of the opportunities available to them of taking a share in the utilisation of the raw materials of the country. The Secretary of State has recently approved of the view enunciated by the Government of India that the true solution (of the problem of the recruitment of Indians to the Geological Survey of India) is in the early creation of means of instruction such as will enable Indians to attain the necessary qualifications in India. He has further expressed the hope that necessary arrangements will be made without avoidable delay.

3. Under the Reform Scheme only central agencies and institutions for research and for professional or technical training, or for the promotion of special studies will be under the administration of the Government of India and it is only for such agencies and institutions that funds can be allotted from imperial revenues. The provision of high class instruction in geology will obviously fall within this definition. With regard to mining education, it is true that the scheme formulated by the McPherson Committee had for its main object the supply of trained men for the industry in coal mining which is at present largely confined in India to the provinces of Bengal and Bihar and Orissa. It must, however, be recognised that coal mines, as well as metalliferous mines are now being developed in other provinces in India. The Government of India consider that the proposed School of Mines although spoken of as a "school" on the analogy of the terminology long ago adopted and perpetuated in the Royal School of Mines, London, should really be an institution of collegiate rank in which the highest form of teaching in the art of mining and its accessory sciences should be undertaken. It may, therefore, be assumed that there will be no other school like it in India in the near, or probably even distant future. Moreover on account of its unique nature as a high class specialised institution it should be available for students from all parts of the country. The improvement of the mineral supplies of the country is an imperial requirement affecting the general advancement of the country as a whole. In view of these considerations the Government of India have decided that the proposed School of Mines should be an imperial institution.

4. The location of the School of Mines was discussed by the Indian Industrial Commission in paragraphs 169 to 171 of their report. The Commission came to the conclusion that, in view of the great desirability of keeping the mining industry in the closest possible relation with mining education, the school, as recommended by the McPherson Committee, should be established at Dhanbad in the province of Bihar and Orissa. The Calcutta University Commission have enumerated in paragraph 28 of Chapter XLVI of their report the many advantages that Calcutta possesses as the site for an advanced school of mining. The Government of India are inclined to think that the Calcutta University Commission did not fully realize the difficulties that are likely to be experienced by the staff of an institution in Calcutta in keeping touch with the industry of the coal-fields or with the scattered metalliferous mines of India and Burma.

5. There are obvious advantages in the establishment of a combined school of mines and geology. In a school of mines, geology must necessarily be one of the prominent subjects and can be developed on a full scale for geologists, whilst the junior courses will be used by those who will specialise in mining. All students will naturally take the junior courses in the foundation sciences, including geology, but they will be allowed to specialise finally in either mining or in geology. It is believed that at the outset the number of students in either course will be limited, and a combined school will be much less expensive than separate schools of mining and geology. The status and efficiency of the entire institution will be enhanced by the combination.

6. The Government of India have, therefore, decided to locate the proposed School of Mining and Geology at Dhanbad. As already stated the school will be imperial and consequently the Government of India will be responsible

for its maintenance and administration. The school will be open to students from all parts of British India and facilities will be provided for the training of youths from Indian States. It is hoped that provincial Governments as well as associations representing industries that will benefit from the teaching of the school will give liberal support in the way of scholarships, travelling fellowships and lectureships. The Government of India desire to make full provision for the adequate representation of provincial Governments and associations interested in the mining industry on the governing body of the school.

7. The following paragraphs represent the tentative views of the Government of India with regard to various details connected with the scope of the proposed school. They will be glad to receive the views thereon of Local Governments and of the Governing Body when it is constituted.

- (a) As already stated, one of the main objects of the school on the mining side will be to supply trained officials for the coal-mining industry, but instruction in metalliferous mining should also receive due attention.
- (b) In paragraphs 22 *et seq* of their report the McPherson Committee made recommendations for lower-grade instruction in coal-mining. The Government of India feel that institutions for lower-grade teaching, either in coal or in metalliferous mining, will receive due care from provincial Governments. Close contact is, however, desirable between the teachers of the evening classes in the coal-fields and the staff of the Imperial School in order that the former may be able to keep themselves *au courant* with the latest developments of their profession and to receive advice and information on technical matters.
- (c) In their report the McPherson Committee dealt with the instruction of mine surveyors. In Europe mine surveyors constitute an important branch of the mining profession and considerable training as well as technical skill is demanded of them. The Government of India feel doubtful whether a one-session course as recommended in the McPherson Committee's report will be sufficient for the adequate training of mine surveyors. At the same time it is open to question whether the requisite training can be usefully imparted at an institution devoted mainly to high grade instruction in mining and geology. This is a point on which the Government of India will await the considered opinion of the governing body of the Dhanbad School as soon as it is constituted.
- (d) The Government of India are separately considering the recommendation made in the report of the Indian Industrial Commission for the establishment of a metallurgical research institute at Sakchi or Jamshedpur. No definite decision has yet been reached, but they are of the opinion that, should an institution be eventually established there, it will have an entirely separate object and constitution from those of the Dhanbad School. Arrangements may then be made, if necessary, for the interchange of facilities between the two institutions for specialised research and advanced training.

8. The Indian Industrial Commission examined in paragraph 160 of their report the relations that should subsist between an institution like the proposed school at Dhanbad and the Universities. This point was also considered by the Calcutta University Commission in their report. In view of the fact that expert opinion is much divided on the question of the affiliation of specialized institutions of this type to Universities, specially to Universities whose centres are situated at a distance from the institutions, the Government of India do not think that it is necessary at least in the initial stages, to affiliate the school at Dhanbad to any University. The Dhanbad institution must, however, maintain contact with the highest form of educational thought, methods and standards. The Government of India, therefore, think it desirable that the Universities of Calcutta and Patna

should be represented on the governing body of the Dhanbad School. They are also of the opinion that, in order that a diploma of the school may carry sufficient value and that its standard may be maintained at a high level, it is essential that, for the purposes of both theoretical and practical examinations in the school, external as well as internal examiners should be employed. There should be specific provision for this purpose in the regulations framed for the school.

9. After careful consideration the Government of India are of the opinion that the governing body of the school should be constituted as below:—

- (1) Director, Geological Survey of India. (President.)
- (2) Chief Inspector of Mines.
- (3) Principal of the College (*ex-officio* Secretary).
- (4) One official appointed by the Government of Bengal.
- (5) One official appointed by the Government of Bihar and Orissa.
- (6) One representative of the Calcutta University.
- (7) One representative of the Patna University.
- (8) One representative of the Indian Mining Association.
- (9) One representative of the Indian Mining Federation.
- (10) One representative of the Mining and Geological Institute of India.
- (11) One representative of Burma Mining industry to be nominated for the present by the Government of Burma.
- (12) One representative of Central Provinces and Berar Mining Association.
- (13) and (14) Two non-officials to be nominated by the Government of India.

or three {

10. The Government of India are anxious that no time should now be lost in establishing the school on a working basis and they will be glad if provincial Governments and the different bodies referred to in the previous paragraph will kindly indicate their nominations to the governing body at an early date. The Government of India have already applied to the Secretary of State for an early recruitment of a Principal. The Government of India desire that the governing body, as soon as it is constituted, should formulate proposals for—

- (a) buildings and equipment including class-rooms, laboratories, library, museum, hostels, residences for staff, out-houses, play grounds, etc.

It may be stated that steps are already being taken for the acquisition of a suitable area of land in Dhanbad.

- (b) Staff and the procedure for its recruitment.
- (c) Courses of study, examinations, diplomas.
- (d) Rules of admission, number in each class, fees, scholarships, etc.
- (e) The constitution of a Council of the staff and regulations providing for the respective powers of the Principal, the staff, the council and the governing body, including any sub-committees which they consider to be necessary for administrative purposes.

The Government of India also desire that the governing body should prepare as early as possible an estimate of the cost of the school both initial and recurring.

ORDERED that the Resolution be communicated to all the Local Governments and Administrations, to the Education Department and the Financial Adviser (Industries), to the Director, Geological Survey of India, to the Chief Inspector of Mines in India, to the Vice-Chancellors of the Calcutta and the Patna Universities, to the Indian Mining Association, to the Indian Mining Federation, to the Mining and Geological Institute of India, and to the Central Provinces and Berar Mining Association.

ORDERED also that the Resolution be published in the *Supplement to the Gazette of India*.

### Conditions for Indian Geological Survey Appointments.

1. Applications for appointment should be made on a printed form to be obtained from the Revenue Secretary, India Office, London, S.W.-1. Appointments are made as occasion may require by the Secretary of State for India on the recommendation of a Committee including one or more geologists. Candidates must, if required, attend at the India Office, at their own expense, for a personal interview. Every candidate must be a British subject, and at the time of his birth his father must have been, and must have since continued to be, a British subject; but power is reserved to the Secretary of State to make exceptions in special cases.

2. The age of candidates should ordinarily not exceed 25, but this rule may be relaxed in exceptional cases. Every candidate must be in sound bodily health, and will be required to satisfy the Medical Board at the India Office of his physical fitness in all respects to perform the duties of the Geological Survey, which involve considerable fatigue and exposure. Unmarried candidates are preferred.

3. Preference will be given to candidates who have served in His Majesty's Forces during the war. Completed years of combatant service will, subject to a maximum of four years, count for pay and promotion, but not for leave, while, as to pension, officers retiring after 20 and less than 25 years' service will be allowed to count a maximum of two years and those retiring after 25 years' service a maximum of three years.

4. Besides a good general education, a sound education in geology is essential; a University degree and a knowledge of French or German will be regarded as important qualifications; and certificates of good character will be required. Candidates must also have had one or two years' practical training in mines or in technical laboratories, as may be required by the Government of India.

5. The sanctioned establishment and pay of the Geological Survey Department are as follows :—

				Year of service.	Scale.	Overseas allowance.	Total.

The overseas allowance is admissible only in the case of officers of non-Indian domicile.

A local allowance of Rs. 150 per mensem is granted to the officer doing the work of Palæontologist at headquarters. The officer holding the appointment of Museum Curator receives special Presidency house-rent allowance of Rs. 150 per mensem.

No allowance of the nature of exchange compensation is given.

6. Pay commences from the date of arrival in India. Travelling allowances regulated by the rules applicable to the Department are allowed at a rate calculated to cover actual expenses of tentage and locomotion.

7. A first-class passage to India is given subject to the condition that its cost shall be refunded in the event of an officer resigning the service on grounds other than certified ill-health before the expiry of the period of probation.

8. First appointments are probationary for two years, at the end of which time the probationer, if found qualified and retained in the Department, will reckon his service for leave and pension from the date of arrival in India. If, on the expiry of the period of probation, the officer's service is determined, or if he is compelled by certified ill-health to resign the service before such expiry, he will be provided with a free first-class passage back to England.

9. Under ordinary circumstances all Assistants, unless they have special claims from previous training and experience elsewhere, will enter the Department in the lowest class. The first increase of pay takes effect from the date on which the Assistant shall be declared to have passed the ordinary examination in the language of the country by the first or lower standard, according to the general rules provided for such examinations.

---

This annual increase will in all cases be granted only on the certificate of the Head of the Department that the Assistants so recommended have fully deserved it by the intelligence and zeal with which their duties have been performed.

10. Promotion to the grade of Superintendent will depend on qualifications and merit and on the existence of vacancies in that grade. While local experience and training must always hold a very prominent place in estimating the position or the promotion of Assistants, it must be distinctly understood that mere seniority of service, unaccompanied by proved ability and steady devotion to duty, gives no claim to promotion into the higher grades of the staff of the Survey.

11. The leave, leave allowances, and pensions of officers of the Department are governed by the provisions of the Civil Service Regulations applicable thereto. These regulations are liable to be modified by the Government of India from time to time. A copy of an abstract of them may be obtained from the Revenue Secretary, India Office, London, S.-W.-1.

E. Marsden	...	...	Geography for Senior Classes, Parts I and II.

The World with fuller treatment of India (Longmans' Geographical Series for India, Book II).

Wallis	...	...	The Teaching of Geography (Cambridge University Press).

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools :—

A. E. Frye	...	...	The Child and Nature.
------------	-----	-----	-----------------------

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list :—

I—(The total cost need not exceed Rs. 65)—

1. A measuring tape.
2. A magnetic compass.
3. Squared paper and tracing paper.
4. Clay, dry sand, paper pulp for modelling.
5. A globe not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines only of the land masses, marked upon it.
6. A map of the school locality on a scale of 4" or 6" = 1 mile.
7. A map of the district in which the school is situated on the scale 1" = 1 mile.
8. A coloured map of the province.
9. A coloured political map of India.
10. A physical map of India.
11. A relief map of India.
12. A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand-maps, and with a drawing instrument box. Maps for school work should not contain too much detail, or be crowded with names.

II. The following additional equipment is recommended when it can be provided, but the lack of it is not to be considered as a bar to the recognition of the school in Geography:—

1. A thermometer.
2. A mercury barometer.
3. A rain gauge.
4. A small collection of typical rocks, in particular those of the province and of India.
5. A small museum of typical products.
6. A good standard atlas.
7. Geographical pictures.
8. Magic lantern and slides.

(1) The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp, prepared by Babu Kailaschandra Datta, Head Pandit, Habiganj Government Girls' School, Sylhet, and sold for Rs. 7 and Rs. 5, respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W., and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London.

Small hand globes of German make can be obtained through the Indian School Supply Depôt for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which include maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good. Mr. S. B. Chatterjee publishes District maps: also ordinary and relief maps of the province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong cardboard, named on one side, and the same map without names on the reverse, published by Armond Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for Rs. 4-14 each.

(4) The hand-maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each, are the best of their kind.

The uncoloured half-penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The Autograph hand-maps, with hill shading in brown, published by Messrs. Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15-inch map of the world on Mollweide's equal area projection is especially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris and Messrs. Holzner of Vienna, and Messrs. Longmans Green and Company. They cost, delivered in India, from two to three rupees each.

Map lantern slides and view slides especially prepared for Geography teaching are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sells good picture slides of the Himalayas at Rs. 15 per dozen.

#### ELEMENTARY MECHANICS.

The following books are recommended:—

- |                       |  |
|-----------------------|--|
| Sir Philip Magnus ... | ... Elementary Mechanics (Longmans, 1903). |
| A. N. Sen ...         | ... Elementary Mechanics.                  |

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and level.  
 Simple lever (including brass slotted weights).  
 Roman steel yard.  
 Lecture apparatus for experiments on movements.  
 George's New Atwood's machine.  
 Stop-watch.  
 Glazebrook's apparatus (to demonstrate movement of a body).  
 Hick's Ballistic Balance.  
 Compound Wheel and Axle.  
 4 Single Brass Pulleys.  
 2 Single Brass Pulleys.  
 2 Triple Brass Pulleys.  
 Weston Differential Pulley Blocks ( $\frac{1}{2}$  ton).  
 16 feet of chain at 6d. per foot.  
 Inclined Plane.  
 Parallelogram of Forces apparatus.  
 Wall Crane.  
 Becker's New Physical Balance.  
 Set of Gramme Weights (200 grams to 1 mgr.)  
 2 Composition-ivory Balls.

[NOTE.—The above list is not exhaustive, and much of it might be replaced by similar forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual account or working in pairs.]

1. Every person whose name is entered as a shareholder in the register of shareholders shall, without payment, be entitled to a certificate under the common seal of the Bank (or if the certificate relates to shares registered in a branch register under the official seal of the Bank) specifying the share or shares held by him and the amount paid up thereon: Provided that, in respect of a share or shares held jointly by several persons, the Bank shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint-holders shall be sufficient delivery to all.

The Bank's lien, if any, on a share shall also extend to all dividends payable thereon.

3. The Bank may sell, in such manner, as it thinks fit, any shares on which it has a lien, but no sale shall be made unless some sum in respect of which the lien exists is presently payable, nor until the expiration of fourteen days after a notice in writing, stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable has been given to the registered holder for the time being of the share, or to the person entitled by reason of his death or insolvency to the share.

4. The proceeds of the sale shall be applied in payment of such part of the amount in respect of which the lien exists as is presently payable, and the residue shall (subject to a like lien for sums not presently payable as existed upon the shares prior to the sale) be paid to the person entitled to the shares at the date of the sale. The purchaser shall be registered as the holder of the shares, and he shall not be bound to see to the application of the purchase-money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
